Wooden Venetian Blinds Trade Price List

Size Restrictions:

	25mm	35mm	50mm
Min width (mm)	320	320	400
Max width (mm)	2000	2000	2420
Min drop (mm)	200	200	200
Max drop (mm)	3000	3000	3000
Max Area (sqm)	4	4	4.8

Approximate stack size:

Drop of blind (mm)	25mm	35mm	50mm
500	120	110	110
1000	175	160	155
1500	230	200	200
2000	280	250	24.5
2500	330	295	290
3000	380	340	335

It is important that the customer is aware of the stack size for the blinds. The above details are for guidance only. For blinds supplied with tape, the stack size will be approximately 10% larger.

Operation:

- (1) Each blind can be tilted, raised and lowered.
- (2) One set of cords are used to raise and lower the blind, the other to tilt
- (3) Please specify whether the cords are required all on the left or right, or on separate sides
- (4) All control cords and wooden acorns are colour co-ordinated with the wood slats
- (5) If split controls are required the tilt cords must be on the left with the cord lock on the right

Ladder - Cord or Tape

- (1) Blinds can be ordered with either ladder **cord** or **tape**.
- (2) 25mm and 35mm blinds have a tape width of 18mm.
- (3) 50mm blinds have a tape width of 25mm.

Valance

- (1) A valance to match the wood slats is also included.
- (2) Blinds measured "recess" will be supplied with a straight valance.

Additional Notes:

- (1) 25mm and 35mm blinds are supplied with headrail that is 40mm x 40mm
- (2) 50mm blinds are supplied with a headrail that is 51mm x 40mm
- (3) Mixed colour Wood Blinds are not available
- (4) All blinds supplied with end fix brackets. Larger blinds will be supplied with U shaped centre support brackets which can either be face fixed or top fixed.
